

BASIT ALI

Aspiring AI Engineer | Agentic AI & AI Solutions Developer

S/O Altaf Hussain

Phone: 0370-3168969 | Email: ba876943@gmail.com | GitHub: github.com/Basit1478 | Address: Karachi, Pakistan

PROFESSIONAL SUMMARY

Motivated and self-driven aspiring AI Engineer with hands-on experience building and deploying agentic AI systems. Currently training under GIAIC (Governor's Initiative for Artificial Intelligence & Computing) in Agentic AI, working with Python, TypeScript, Next.js, the OpenAI Agents SDK, Claude Code, and OpenClaw. Founder of Codizzz, an AI solutions agency, and its startup venture AgentHubPK — a multi-agent platform bringing HR, Marketing, and Strategic Planning together for companies. Experienced in deploying AI systems on cloud platforms (AWS, Azure) using Docker and Kubernetes. Fast learner, disciplined, and eager to grow as a professional AI Engineer.

KEY SKILLS

- Python, TypeScript, Next.js
- OpenAI Agents SDK / Agentic AI Development
- Claude Code & OpenClaw (AI-Assisted Development)
- Docker & Kubernetes (Containerized Deployment)
- Cloud Platforms: AWS, Microsoft Azure
- Odoo ERP Integration
- API Integration
- AI Customer Support / CRM Solutions
- Startup Building & Client Solutioning
- Graphic Designing
- MS Office (Word, Excel)
- Computer Literacy (CIT Certified)
- Basic Math & Numeracy Skills
- Communication & Interpersonal Skills
- Discipline & Punctuality
- Attention to Detail
- Fast Learner & Self-Motivated

PROJECTS

AI Digital Employee — Social Media Automation | Personal Project | github.com/Basit1478

- Built and deployed an autonomous AI digital employee agent for social media automation on AWS
- Enabled one-click, single-action posting across multiple social media platforms simultaneously
- Used spec-driven development to define and structure the agent's behavior
- Containerized the system using Docker and orchestrated deployment with Kubernetes
- Integrated the agent with Odoo ERP for business process automation
- Tech stack: Python, OpenAI Agents SDK, Docker, Kubernetes, AWS

AI Customer Support CRM | Personal Project | github.com/Basit1478

- Developed an AI-powered customer support CRM to automate query handling
- Used spec-driven development to define and structure the agent's behavior
- Containerized the system using Docker and orchestrated deployment with Kubernetes
- Deployed the solution on Microsoft Azure for scalable cloud hosting
- Designed agentic workflows to manage customer conversations end-to-end
- Tech stack: Python, Agentic AI Workflows, Docker, Kubernetes, Microsoft Azure

WORK EXPERIENCE

Founder & AI Engineer | Codizzz (AI Solutions Agency) | Karachi | Ongoing

- Founded and run Codizzz, an agency providing AI automation and agentic AI solutions to clients
- Designed and delivered AI-driven products, including agent-based automation systems
- Managed end-to-end client solutioning, from requirements to deployment on cloud infrastructure

Founder | AgentHubPK (Startup, under Codizzz) | Karachi | Ongoing

- Building AgentHubPK, a multi-agent SaaS platform unifying HR, Marketing, and Strategic Planning for companies on a single platform
- Designing an HR Agent that reads a company's own description of its work and generates matching job descriptions, then sources candidates by matching keywords across job platforms
- Developing a Marketing Agent that analyzes a company's brand identity and builds marketing plans to strengthen it
- Designing a Strategy Agent that supports company strategic decision-making, helping avoid competitor mistakes and build a stronger market position

EDUCATION

Associate Degree in Arts (ADA) — In Progress

Benazir Bhutto Shaheed University, Lyari | Currently Enrolled

Intermediate (HSSC)

Jamia Millia Government Degree College | 2023 - 2024

Matriculation (SSC)

Mashal Boys Secondary School | 2021 - 2022

CERTIFICATIONS

GIAIC — Agentic AI (Governor's Initiative Artificial Intelligence Course)

In Progress | 1.5+ Years — Python, TypeScript, Next.js, OpenAI Agents SDK, Claude Code, OpenClaw, Agentic AI Systems

CIT (Computer Information Technology) Educator

CIT Educator Institute | 6 Months | 2021 - 2022

Graphic Designing

Santino Institute | 2 Months | 2023

PERSONAL STRENGTHS

- Fast learner — quickly adapts to new AI tools, frameworks, and cloud platforms
- Entrepreneurial mindset — founded and runs an AI solutions agency and startup
- Strong problem-solving skills with hands-on deployment experience
- Reliable, disciplined, and committed to continuous learning in AI engineering

PERSONAL INFORMATION

Nationality: Pakistani Languages: Urdu (Native), Sindhi (Fluent), English (Intermediate)
